

Become a MixMyRide tester, the app that eases your mobility in Geneva

Are you interested in improving your daily trips? Join the MixMyRide research project and contribute to test an innovative app for more sustainable mobility in your region.

A research project that needs you!

MixMyRide is a smartphone app that aims to offer a new multimodal, flexible and efficient mobility service over the region, to:

+ REDUCE

The number of daily private car trips

+ SAVE

Energy and CO₂ emissions

+ INCREASE

The use of public transport, active modes, carpooling

+ CONTRIBUTE

To shape the mobility of the future

Use MixMyRide for your mobility needs and get rewarded for your contribution to research

You may win one of the prizes offered through random draws over the year of availability of MixMyRide, for a total amount of prizes of 4'000 CHF. To participate, you must:

- **DOWNLOAD** MixMyRide app
- **USE** the app regularly to move around your region
- **ANSWER** the three online surveys you will receive and, if invited, join a group interview

MixMyRide is looking for volunteers over 16 years old living, working or studying in the Geneva region to use the app and test the mobility services it provides.
